

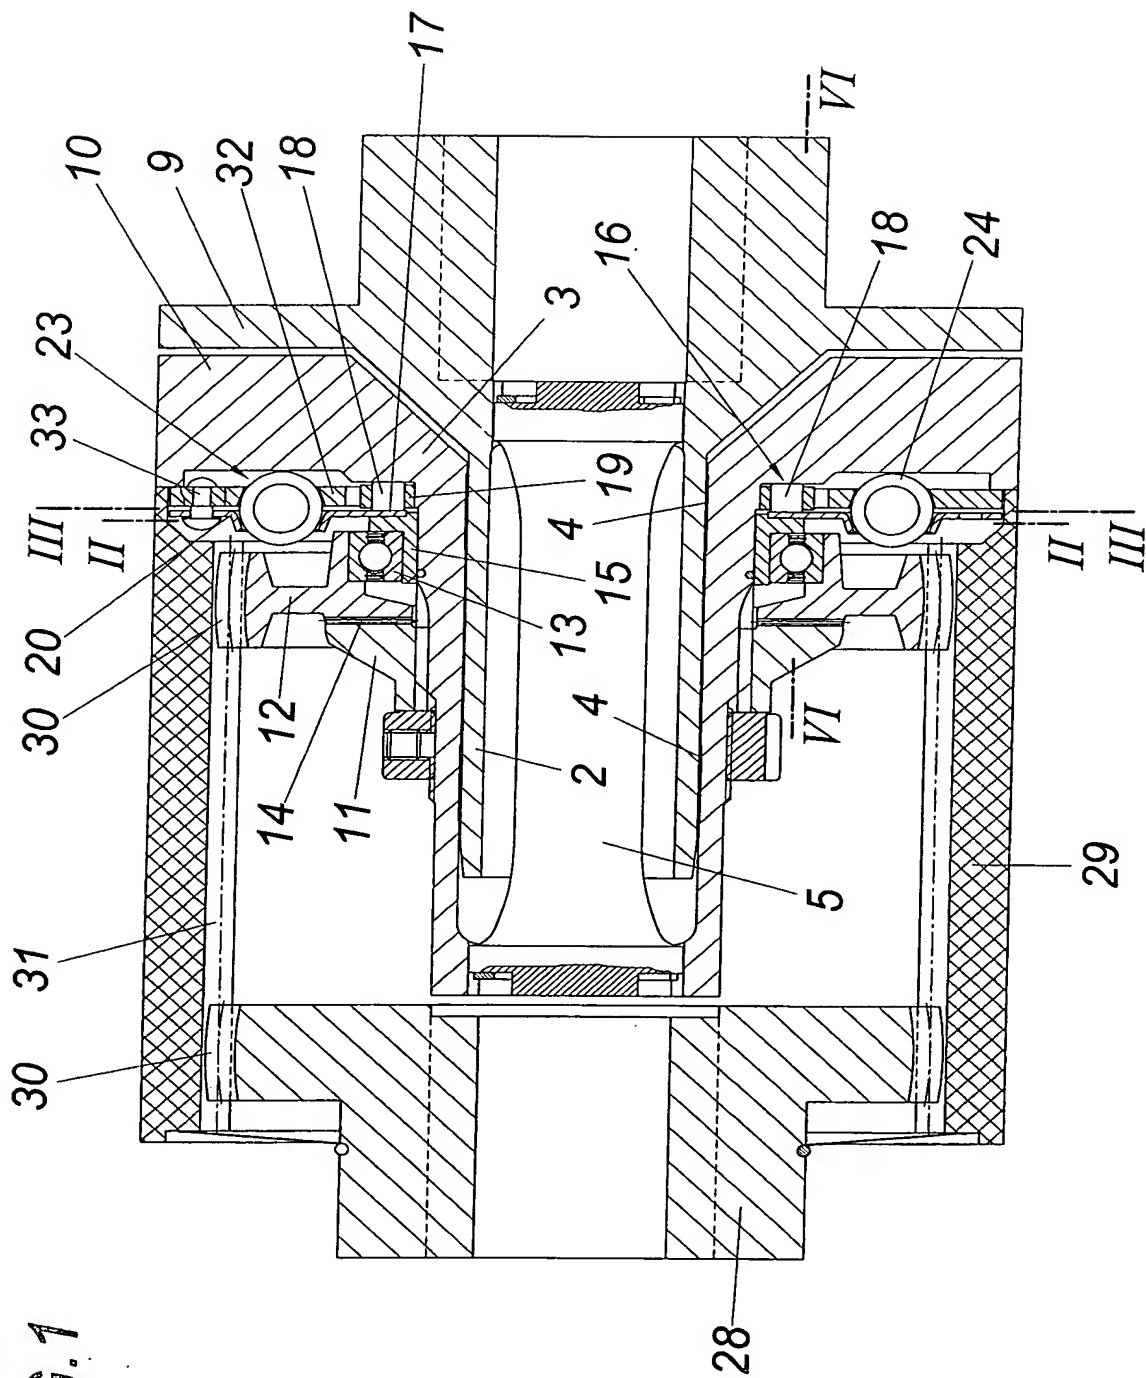

FIG.1

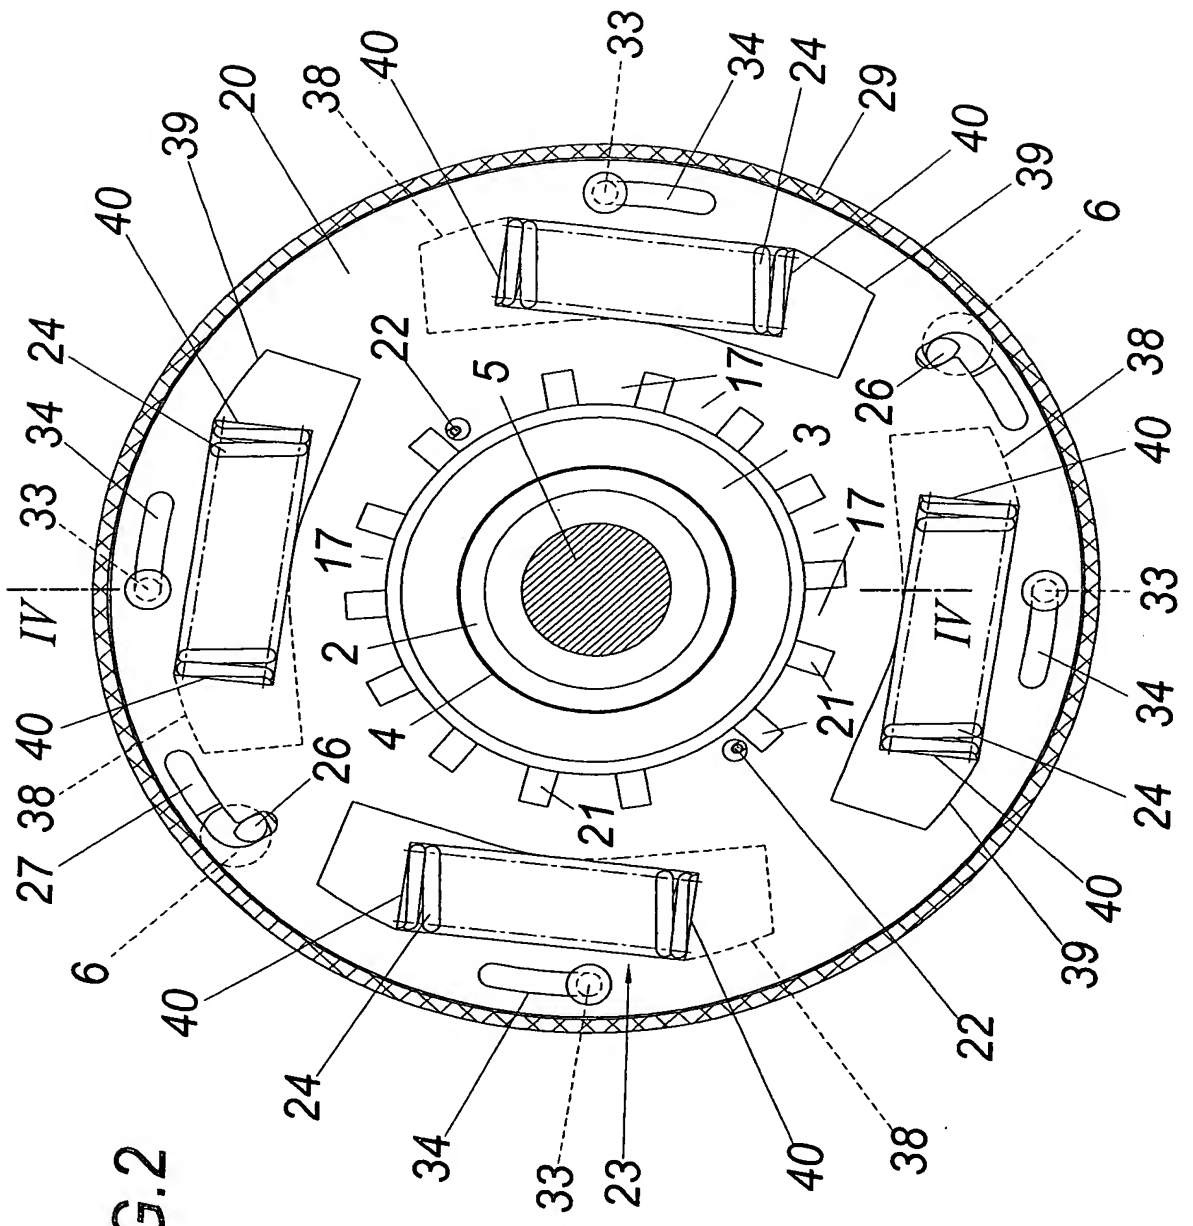

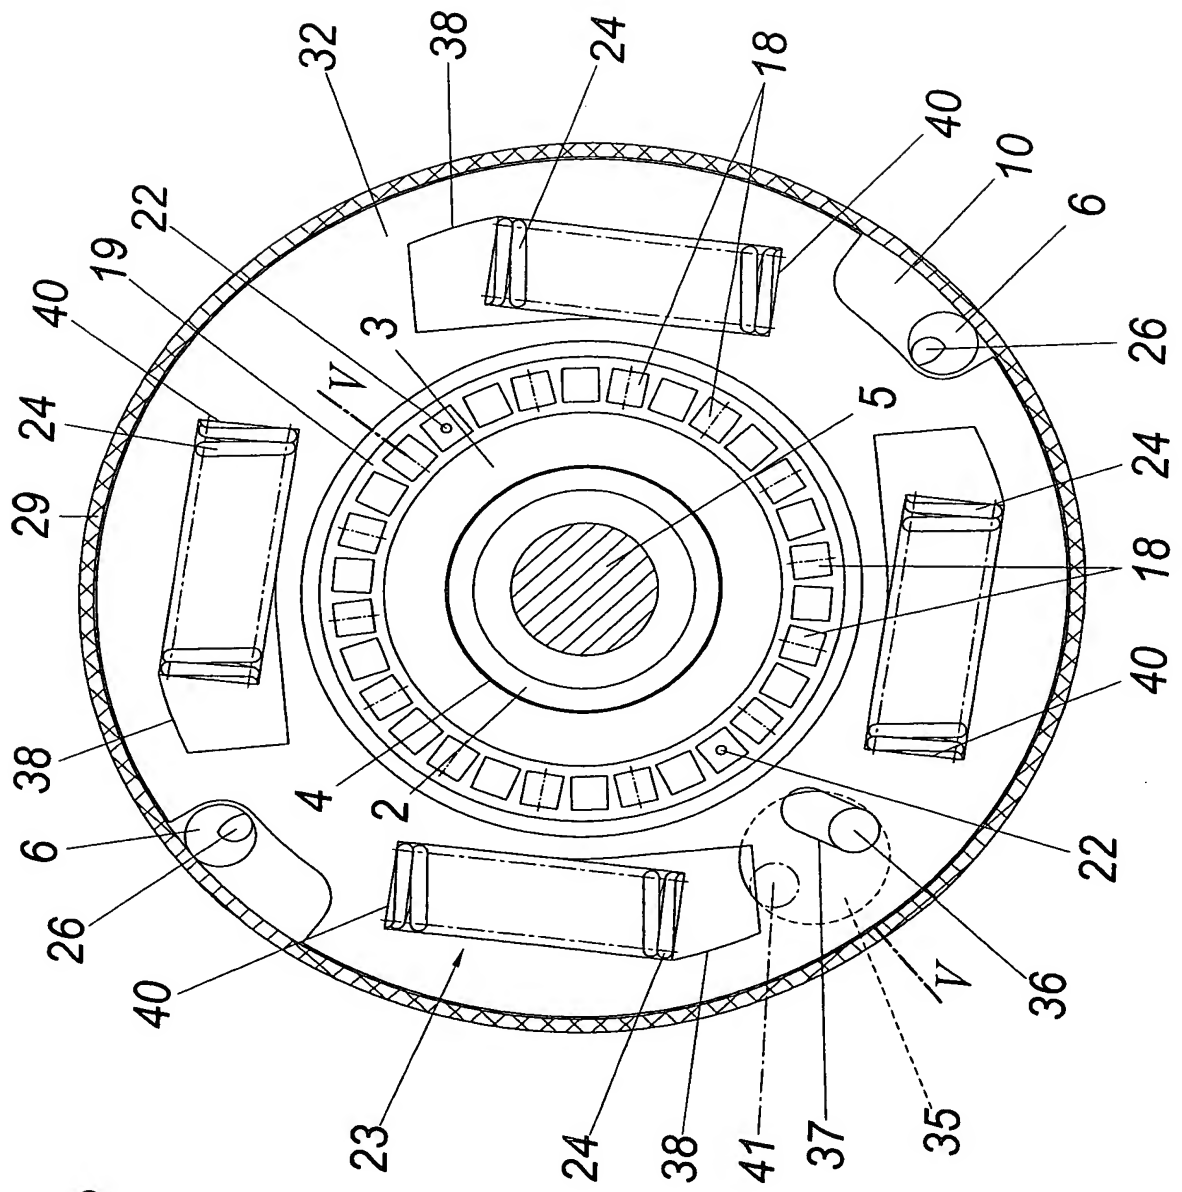

FIG. 2

This top view shows a circular device with a central ring of segments (2) and four actuators (3) arranged around it. The actuators are connected to a central hub (4) and a ring of segments (5). The device is enclosed in a circular housing (6) with a cross-hatched outer edge (40). A central circular feature (18) is visible in the middle. Various other components are labeled with numbers 1 through 41, including a central hub (4), a ring of segments (5), and a central circular feature (18).
